THIRD PARTY

# CYBER RISK AUDIT

**FAST.  
FOOLPROOF.  
SECURE.**

KEEPING TRACK OF YOUR SUPPLIERS'  
CYBER SECURITY ARRANGEMENTS  
CAN BE A NIGHTMARE.

**IT'S TIME TO SIMPLIFY  
WITH SYNERGi THIRD PARTY.**

SECURE CYBER UNLOCK OPPORTUNITY

IRMSECURITY.COM

# INFORMATION SECURITY OFFICERS KNOW THAT PROTECTING YOUR OWN ORGANISATION IS ONLY PART OF THE PICTURE.

EVERY TIME YOU GRANT A CONTRACTOR, SUPPLIER OR OTHER THIRD PARTY ACCESS TO YOUR DATA, YOU ENTRUST THEM WITH YOUR MOST VALUABLE ASSET.

But confirming each one meets your security standards is a huge, thorny problem requiring hundreds – perhaps thousands – of hours issuing and chasing up surveys, poring over spreadsheets and following up with colleagues in Legal and Procurement. (And not just the once, but on a regular basis, to check those third parties keep themselves up to date.)

## **That's why so many organisations outsource, leading to huge audit projects at a hefty price.**

SYNERGi Third Party automates third party assurance and is a more efficient way to manage that risk. SaaS and fully customisable – typically paying for itself within one or two survey cycles.

## AT A GLANCE

- + DPA, ISO, Cyber Essentials and PCI assurance, fast
- + Rapid return on investment – typically within 1-2 cycles
- + Share information and tasks with Legal and Procurement
- + Gain responses efficiently and accurately
- + Collate answers from the most relevant contacts, easily
- + Fully customisable surveys, processes and rules
- + SaaS

# SYNERGi®

## KEY BENEFITS

- + Save hours of administration and analysis
- + Stay compliant with managed surveys
- + Join forces with Legal and Procurement
- + Instant overview of third party risk
- + Make smart, informed decisions

## 17+ YEARS OF CYBER EXPERIENCE

### **SYNERGi didn't just arrive on the cyber security bandwagon.**

Here at IRM, we've been advising leading public and private sector organisations on cyber security since 1998. Working with 750 customers in 25 countries, we've seen how hard it is to confirm third parties meet your security requirements – let alone whether they keep those standards up to date.
